**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

For too long I have been forced to use terrible Internet service through gigantic companies that charge too much and have awful service. For the past year I have been using fiber through Sonic Internet and it has changed my life. I can run my business through my home and not pay an arm & leg for this service. I actually enjoy working with them as a partner as well.

All you are doing now is helping the big companies get bigger and stifle the little players from truly innovating. Please think about this decision and don't go back on your word. Internet service is critical to my way of life. My 8 year old son said WiFi is the most important invention ever. That is how much it is valued in my household.

Thanks for the consideration.

Russell Thau
